Welcome Message

Dear All,

Scientific Federation invites all the participants from all over the world to attend **International Conference on Medicinal Chemistry & Drug Design** during **August 20-21, 2018 at Paris, France** which includes Keynote presentations, Oral talks, Poster presentations and Exhibitions.

Medicinal Chemistry-2018 will also provide the excellent opportunity to meet experts, exchange information, and strengthen the collaboration among Directors, Researchers, Associate Professors, and Scholars from both academia and industry. The main theme of the conference is The Role of Nature and Nurture in Chemistry and Targeted Drug Delivery.

Conference Objectives:

- To facilitate opportunities for networking, collaboration and exchange of ideas with internationally renowned leaders in Medicinal Chemistry & Drug Design research and development.
- To identify research and practice based innovations in optimizing Medicinal Chemistry & Drug Design research and development.
- To debate gaps and priorities for sustainable development in optimizing Medicinal Chemistry & Drug Design research and development.
- To discuss and debate the challenges and opportunities in the new era of optimizing Medicinal Chemistry & Drug Design research reforms.
- To identify opportunities for evidence-based practice in optimizing Medicinal Chemistry & Drug Design research and development.

We look forward to seeing you in Paris in August, 2018...!!!

Best Regards
Organizing Committee

Conference Highlights

The Scientific Federation brings you an immense opportunity to be a part of scientific acceleration to world class personalities, young scholars, scientific delegates and young scientists to join in this forum to utilize the expertise and novelties that brings a new era for innovations in the field of Medicinal Chemistry & Drug Design which brings well versed scrutinizers at one place. It provides a platform to have open discussions, knowledge sharing and interactive sessions with field experts at Medicinal Chemistry-2018. We request you to submit a brief idea or abstract of your talk/presentation/symposium/workshop according to your session interest.

- Medicinal Chemistry & Drug Discovery
- Fusion of Traditional and BioMedicine
- Computer Aided Drug Designing-CADD
- Drug Chemistry
- Frontiers in Chemistry
- Pharmacology
- Pharmaceutical Technology
- Drug Targeting
- Nanotechnology in Drug Delivery Systems
- Drug discovery and Medicinal Chemistry
- Physiological Considerations of Drug Delivery
- Advances in Biotherapeutics-Drug Discovery and Development
- Vaccine Drug Delivery Systems
- Medical Devices for Drug Delivery

About Paris

Paris, France's capital, is a major European city and a global center for art, fashion, gastronomy and culture. Its 19th-century cityscape is crisscrossed by wide boulevards and the River Seine. Beyond such landmarks as the Eiffel Tower and the 12th-century, Gothic Notre-Dame cathedral, the city is known for its cafe culture and designer boutiques along the Rue du Faubourg Saint-Honoré.

Tourism in Paris is a major income source for Paris and the city ranks in the world's most visited cities. In 2013, the City of Paris welcomed 15.6 million international visitors, the largest number of whom came from the United States.[1] In the Paris region, the largest numbers of foreign tourists came in order from Britain, the United States, Germany, Italy, China and Canada.

In 2012, 263,212 salaried workers in the city of Paris, or 18.4 percent of the total number, were engaged in tourism-related sectors; hotels, catering, transport and leisure.[2] In 2014 visitors to Paris spent 17 billion dollars (13.58 billion Euros), the third highest sum globally after London and New York.[3]
