Welcome Message

Dear All,

Scientific Federation invites all the participants from all over the world to attend **2nd World Congress on Clinical Research & Biomarkers** during **September 17–18, 2018 Toronto, Canada** which includes Keynote presentations, Oral talks, Poster presentations and Exhibitions.

WCCRB-2018 will also provide the excellent opportunity to meet experts, exchange information, and strengthen the collaboration among Directors, Researchers, Associate Professors, and Scholars from both academia and industry.

WCCRB-2018 is anticipating participants from 40 and more countries across the globe and the two day conference will provoke plenary sessions, Keynote speeches, Poster, and Oral presentations. This program provides two days of robust discussions on recent advancements and new strategies for development of new materials for global requirements.

CONFERENCE OBJECTIVES:

- To facilitate opportunities for networking, collaboration and exchange of ideas with internationally renowned leaders in Biomarkers research.
- To identify research and practice based innovations in optimizing Clinical research and Biomarkers development.
- To debate gaps and priorities for sustainable development in optimizing Biomarkers research and development.
- To discuss and debate the challenges and opportunities in the new era of optimizing Clinical research and development reforms.
- To identify opportunities for evidence-based practice in optimizing Biomarkers research and development.

Our pleasure to meet you in upcoming event...!!!

Best Regards
Conference Organizing Committee

Organizing Committee Members

Dimitrios H. Roukos
Ioannina University,
Greece

David I Smith
Mayo Clinic University, USA

Kenji Suzuki
University of Chicago, USA

Kailash C Chadha
Roswell Park Cancer
Institute, USA

Mohamed Eddouks
Moulay Ismail University,
Morocco

Yvonne Bottcher
University in Oslo,
Norway

Sevgi Ciftci
Istanbul University, Turkey

Amer A. Taqa
Mosul University, Iraq

Conference Highlights

The Scientific Federation brings you an immense opportunity to be a part of scientific acceleration to world class personalities, young scholars, scientific delegates and young scientists to join in this forum to utilize the expertise and novelties that brings a new era for innovations in the field of Clinical Research & Biomarkers which brings well versed scrutinizers at one place. It provides a platform to have open discussions, knowledge sharing and interactive sessions with field experts at WCCRB-2018. We request you to submit a brief idea or abstract of your talk/presentation/symposium/workshop according to your session interest.

- Clinical Trials and its Phases
- Advanced Biomarkers Research and emerging Trends
- Biomarkers in Health and Disorders
- Molecular Diagnostics and Biomarkers
- Translational Biomarkers
- Biomarker Discovery and Validation
- Biomarkers Imaging and Dynamics
- Blood Biomarkers
- Biomarkers and Radiology
- Biomarkers Patenting and Market Place
- Cancer Biomarkers and Cancer
- Pathology
- Pharmacovigilance and Drug Safety
- Bioethics and Quality Reputation
- Bioinformatics in Clinical Research
- Animals as Testing tools
- Drug designing and Development
- Drug Delivery
- Pharmacognosy
- Enzymes as Biomarkers
- Biomarker Discovery
- Biomarkers in Nanomedicine
- Biomarkers Sequencing

For Abstracts Submission:

Conference sessions will bring you the latest strategies, research, and best practices to improve outcomes through quality, safety and staffing.

Glimpses of Previous Conferences

About Toronto

Located on the northwestern shore of Lake Ontario, Toronto is a city that has undergone a major transformation in the second half of the twentieth century, evolving from a staid, conservative, largely Anglo-Saxon enclave to a dynamic, multiethnic metropolis that is one of North America's major cities. Throughout, it has retained an enviable degree of livability, boasting safe streets and a clean, efficient subway system amid restored Victorian houses and a renovated waterfront. Toronto's leaders have worked successfully to protect the city's heritage and its residents' quality of life from the effects of unrestrained development, even as Toronto has continued to grow into a major financial and cultural center.

Toronto, the capital of the province of Ontario, is located on the northwestern shore of Lake Ontario. Although it is a Canadian city, it is located further south than many points in the United States, including much of New England and the northern Midwest, and is highly accessible by both Canadians and Americans.

Important Dates

Abstract Submission Opens: October, 25, 2017

Registration opens: October, 30, 2017

Early bird registration: December 21, 2017

Standard Registration : March 21, 2018

On spot registration: September 17, 2018

Venue

Toronto
Canada
