

3rd Global Virology Congress & Expo

Virology

December 06-07, 2018 | Valencia, Spain
&

5th World Congress and Expo on

Oncology & Radiology

December 06-07, 2018 | Valencia, Spain

Day 1 December 06, 2018

MainHall

08:30-09:30	Registrations
09:30-09:35	Introduction
09:35-10:00	Opening Ceremony
	Plenary Forum
10:00-10:55	Title: Radiobiological Rationale for Stereotactic Hyperfractionated Radiosurgery (SHRS) Bogusław Maciejewski, Radiation Oncology, Poland
10:55-11:10	Refreshments Break
	Keynote Forum
11:10-12:00	Title: Aberrant DNA Methylation Potentiates Oncogenes Expression and Disease Progression in Ovarian Cancer Dimcho Bachvarov, Laval University, Canada
Session 1	Cancer screening and Diagnosis, Radiology and Imaging Technologies, Breast Cancer and Diagnosis, Ovarian Cancer, Viral Hepatitis-Virus-host Interactions, Plant Virology, Virus Interactions
Oral Presentation	
12:00-12:30	Title: Joint Analysis of Multiple Biomarkers for Early Diagnostic of Ovarian Cancer Ines P Marino, Universidad Rey Juan Carlos, Spain
12:30-13:00	Title: Tomosynthesis Guided Breast Biopsy Margaret Szabunio, University of Kentucky, USA
13:00-13:05	Group photo
13:05-14:00	Lunch Break
14:00-14:30	Title: Obtaining Negative Breast lumpectomy Specimen Margins through a Multidisciplinary Approach Xiaoqin Jennifer Wang, University of Kentucky, USA
14:30-15:00	Title: Improving life of cancer survivors: Reversible p53 Inhibition Jing Wang, Institute of Neurosciences of Montpellier, France
15:00-15:30	Title: The Importance of IL8 Gene Expression and IL-8 A251TPolymorphism in Diagnosis and Prognosis of Ovarian Cancer in Iraqi Women Khaled A.Habeb, University of Baghdad, Iraq

15:30-16:00	Title: Potent Cell Therapy with allogenic Human Placental Stromal Cells for Mitigation of Radiation Damages and for Antiinflammatory and Prorenerative Effects
	Rapheal Gorodetsky, Hadassah-Hebrew Unoversity Medical Center, Israel
16:00-16:15	Refreshments Break
16:15-16:45	Title: The Conceivable Influence of Persistent Genotype-4 Hepatitis C Virus Infection on Cellular Immune Subsets before, during and after Pegylated Interferon-α and Ribavirin Therapy
	Sahar Essa, Kuwait University, Kuwait
16:45-17:15	Title: Profile of Antibody Responces and Duration of Protection Against Seasonal Influenza following Vaccination of the Elderly in India
	Madhu Khanna, VP Chest Institute, India
17:15-17:45	Title: Molecular Identification and characterization of a Begomovirus Associated with Yellow Vein Net Disease on Malva Parviflora L. from India
	Sunil Kumar Snehi, Barkatullah University Bhopal, India
17:45-18:15	Title: Identification the NF-kB-Related Proteins Recruited during EGFP-HSV-1 Replication in THP-1 Cells and Contribution of miRNA 146a as its Regulatory Key
	Maria Teresa Sciortino, University of Messina, Italy
Poster Presentations	
P-001	Title: Zika Virus Immunogenic Proteins and Serologic Cross-reaction with Dengue Virus
	silvia ines sardi, Federal University of Bahia, Brazil
P-002	Title: Epidemiological Surveillance in Psittacines of Circoviruses and Pacheco's Disease in Breeding Farms from Brazil
	Thais Helena Martins Gamon, USP , Brazil
P-003	Title: A Comparison between Intraperitoneal Injection and Nasal and Oral Inoculation of Mink with Aleutian Mink Disease Virus
	Hossain Farid, Dalhousie University Faculty of Agriculture, canada
P-004	Title: Influence of Adjuvant, Local Radiotherapy on Circulating Numbers and Phenotypes of Lymphocyte and Neutrophil in Breast Cancer Patients
	Nongnit laytragoon Lewin, Ryhov Hospital p14, Sweden
P-005	Title: Tumor Budding is Correlated with Expression of EMT Regulators and has an Impact on the Prognosis of OSCC
	Seong Doo Hong, Seoul National University, Korea(south)
