

6th Global Nanotechnology Congress and Expo

April 15-16, 2019 at Dubai, UAE

*Theme: Recent advancements in Nanoscience and
Nanotechnology for global requirements*

Scientific Federation

Welcome Message

Dear All,

GNCE-2019 welcomes you to 6th Global Nanotechnology Congress and Expo during April 15-16, 2019 at Dubai, UAE which will bring together world leaders in their respective fields in the fascinating environment of Dubai, UAE. GNCE-2019 will provide the excellent opportunity to meet experts, exchange information, and strengthen the collaboration among Directors, Researchers, Associate Professors, and Scholars from both academia and industry. This program provides three days of robust discussions on recent advancements and new strategies for development of new materials for global requirements.

Conference Objectives:

- To facilitate opportunities for networking, collaboration and exchange of ideas with internationally renowned leaders in Nanotechnology research and development.
- To identify research and practice based innovations in optimizing Nanotechnology research.
- To debate gaps and priorities for sustainable development in optimizing Nanotechnology research and development.
- To discuss and debate the challenges and opportunities in the new era of optimizing Nanotechnology research reforms.
- To identify opportunities for evidence-based practice in optimizing Nanotechnology research.

Best Regards

Nanotech Organizing Committee

Conference Highlights

- Nanomaterials
- Graphene Technologies
- Carbon nanomaterials, devices and technologies
- Nanofabrication
- Nanocomposites and Multifunctional Materials
- Graphene Technologies
- Applications of Nanotechnology
- Nanobiotechnology
- Multifunctional Nanobiomaterials
- Functional materials
- Energymaterials
- Emerging areas of Materials Science
- Advancements in Material Science
- Ceramic and Glass Materials
- MEMS & NEMS
- Nanotoxicology
- Polymer based Nanocomposites
- Microtechnology
- Mining and Metallurgy
- Nanomedicine and Biomedical Engineering
- Nanomedical Approaches for Cancer Diagnosis and Treatments
- Cancer Nanotechnology & Tissue Nanoengineering
- Multifunctional Nanobiomaterials
- Biomaterials and Polymer Chemistry
- Electronic, Optical, and Magnetic Materials
- Materials Processing and Product Manufacturing
- Materials Science and Engineering
- Materials Science-Fundamentals & Characterization
- Materials-Environment Interactions
- Nanodevices & Nanosensors
- Nanoelectronics
- Nanophotonics and Optics

For Abstracts Submission: <https://scientificfederation.com/gnce-2019/abstract-submission.php>

Conference sessions will bring you the latest strategies, research, and best practices to improve outcomes through quality, safety and staffing.

Organizing Committee Members

Mohamed El-Far
Mansoura University, Egypt

Elisabetta Agostinelli
Italian National Research Council, Italy

Sesto Viticoli
Italian Association of Industrial Research, Italy

Manoj Gupta
National University of Singapore, Singapore

Davor Balzar
University of Denver, USA

Yashwant Pathak
University of South Florida, USA

Han-Yong Jeon
Inha University, South Korea

Nadezhda S. Kudryasheva
Russian Academy of Sciences, Russia
