## About hosting organization

Scientific federation is a largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. Scientific federation Conferences explores the future by connecting minds and spreading brilliance at scientific federation Group annual conferences & meetings. Meet your colleagues, discuss your specialty, spread and aid, learn & grow in association with 1000+ scientific societies from The USA, Europe, The Middle East, Africa and The Asia-Pacific region. Scientific federation group is closely associated with globally renowned academic and research societies.

Scientific federation Conferences believe that true technology and innovation depends on hearing from, and listening to, people with a variety of perspectives.

Scientific federation Conferences enhances the technology for people from underrepresented groups by actively recruiting diverse speakers for our events, signing up a broad variety of authors for journals and videos, and taking part in ongoing conversations about the value of diversity in the communities we serve.

## About Dubai

Dazzling city Dubai has been called the fastest-growing city in the world. It is a place where no shortage of tall buildings, but one in particular that stands out intended is the Burj Khalifa, the world's tallest building, rising 2,716.5 feet into the sky. Here you'll find glitzy, glamorous gold in shop after shop.

It's an anomaly as well as a city of the most expensive, and most outrageous. It has plenty of green spaces despite being in the desert you'll find the usual amenities like movie theaters and arcades, and you'll also discover several over-the-top attractions a fashion avenue with a home for nearly every major iconic brand in the world. It stands as the most magnificent and most expensive hotel in the world, with every amenity imaginable, including private butlers. Dubai's Palm Island is famous for being the world's largest man-made island with green hands.
