

Day 1 July 22, 2019

08:00-09:00	Registrations
09:00-09:15	Introduction & Opening Words
	Honorary Speech by Honorable Guests
	Plenary Sessions
Session Chair	Pierluigi Siano, University of Salerno, Italy
Session Co-Chair	
09:15-09:50	Title: Technology Trends for Connected and Autonomous Electric Vehicles in Smart Cities Hussein T. Mouftah, University of Ottawa, Canada
09:50-10:25	Title: Implementing Demand Response Smart Grids Pierluigi Siano, University of Salerno, Italy
10:25-11:00	Title: Deep Web Based Self Organizing Mesh Network for Safe and Secure Data Sharing Implementing a Virtual Private Cloud for Clinical Research. Luca Clivio, University of Milan, Italy
11:00-11:15	Coffee Break @
11:15-11:50	Title: Towards Smart Society with Intelligent Fog (i-Fog) Computing Michael C. Ndinechi, Federal University of Technology, Nigeria
11:50-12:25	Title: Issues and Challenges for the Operational Security of Smart Grid K. Vaisakh, Andhra University, India
	Keynote Session
12:25-12:55	Title: Design, Fabrication and Testing of Micro-Contacts for MEMS Switches Ronald A. Coutu, Marquette University, USA
12:55-13:00	Group Photo
13:00-14:00	Lunch Break@
14:00-14:30	Title: Progress in Microwave Photonic Signal Processing Robert Minasian, The University of Sydney, Australia
14:30-15:00	Title: Intelligent Resource Allocations and Security via Block Chain for Quantum Cloud Computing Services and MIMO Wireless Communications with Big Data Wanyang Dai, Nanjing University, China
15:00-15:30	Title: Managing The Digital Power Business- from Vision to Reality Terje Gjengedal, The Arctic University of Norway, Norway
	Invited Speakers
Session 1	Tele Communications, Intelligent Control Systems, Power Electronics and Power Drives
Session Chair	Wanyang Dai, Nanjing University, China
Session Co-chair	K. Vaisakh, Andhra University, India

15:30-15:50	Title: Performance Evaluation of a Lane Departure Warning System Based on the Optical Flow and Hough Transform Methods Jiann-Shiou Yang, University of Minnesota, USA
15:50-16:10	Title: Advanced Data-Driven Control-Performance-Oriented Process Monitoring and Control System Hao Luo, Harbin Institute of Technology, China
16:10-16:25	Coffee Break @
16:25-16:45	Title: Deployment of Mission Critical Iot Applications for Smart Communities Gurdip Singh, Syracuse University, USA
16:45-17:05	Title: Fractional-Order Systems and their Utilization. Jaroslav Koton, Brno University of Technology, Czech Republic
17:05-17:25	Title: Mitigation of Nonlinear Impairments in Fiber Optics Systems Shiva Kumar, McMaster University, Canada
17:25-17:45	Title: Improving Driving Intelligence of the Self-Driving Cars Using Deep Reinforcement Learning Techniques Majid Moghadam, University of California, USA
17:45-18:05	Title: will be updated soon S.B. Linga Murthy, Andhra University, India

 2nd International Conference on Computer Science and Cloud Computing July 22-23, 2019 Rome, Italy	
Day 2 July 23, 2019	
08:00-09:00	Registrations
09:00-09:15	Introduction & Opening Ceremony
	Honorary Speech by Honorable Guests
	Plenary Session
9:15-10:00	Title: Techniques and Applications of Spatial and Temporal Big Data Takahiro Hara ,Osaka University, Japan
10:00-10:45	Title: Industry 5.0 – A Human Centric Solution Saeid Nahavandi , Deakin University -Victoria, Australia
10:45-11:00	
11:00-11:45	Title: Autonomous and Connected Electric Vehicles Deployment in Smart Cities Hussein T.Mouftah, University of Ottawa,Canada
	Keynote Session
11:45-12:20	Title: Benefits of Formalism in Support of Database Systems Design Emanuel S.Grant, University of North Dakota, USA
12:20-12:55	Title: Cloud Computing: Is it Really a Digital Forensics Game Changer? Marcus Rogers, Purdue University, USA
12:55-13:00	Group Photo
13:00-14:00	Lunch Break@
14:00-14:35	Title: IoT-oriented Networking Applications Gianluigi Ferrari, University of Parma, Italy

14:35-14:10	Title: Software Development Framework for Improving the Engineering of Mobile Applications that Support Fog Computing Stephen W. Clyde, Utah State University, USA
14:10-14:45	Title: SME Clinic: Towards A Big Data Hybrid Business Analytics Advisory Service Model Manolis Vavalis, University of Thessaly, Greece
	Invited Talks
Session 1	Iot Applications, Cybersecurity
Session Chair	Yet to be finalized
Session Co-chair	Yet to be finalized
14:45-15:15	Title: Evaluating Existing Theoretical and Experimental Approaches Towards Securing the Rapidly Evolving Internet of Things. Douglas Kelly, USA Webster University, USA
15:15-15:45	Title: Examining Susceptibility Factors on Cybersecurity Practitioners' Turnover Intentions and their effect on IT Workforce Richmond Adebiaye, University of South Carolina Upstate, USA
