**2<sup>nd</sup> Global Conference on**

**Plant Biology and  
Plant Science**

**October 24-25, 2019 | Bangkok, Thailand**

**Theme:**

**Plant Biology and Plant  
Science- For A Better and  
Healthy Future**

## GCPB-2019

On behalf of our organizing committee we take an enormous pleasure in inviting you to attend the 2nd Global Conference On Plant Biology and Plant Science(GCPB-2019), which will be held during October 24-25, 2019 Bangkok, Thailand. The Conference is designed to facilitate the sharing of knowledge and experience of researchers, young inspired scientists, academicians, and industrialist's education worldwide Plant Biology and Plant Science -2019 will continue this philosophy by encouraging the sharing of research and practice in Plant Science , Plant Biology and Biotechnology , as it impacts on the learning experience of students, qualified practitioners, social needs, and the individuals and communities it serves worldwide, With the theme “ Plant Biology and Plant Science- For A Better and Healthy Future”, Plant Biology and Plant Science -2019 Program will focus on currently employed technologies, disruptive innovations and research of recent progress and evidence-based data in Plant Biology and Plant Science.

In this Two –day event, we will have ample opportunities to chat, learn, share and collaborate with experts from all over the globe.

## Why to attend?

GCPB-2019 provides an opportunity to share knowledge, expertise along with unparalleled networking opportunities between a large number of Plant Biology professionals like a food science technician, plant biochemist, or agricultural manager. They can work in many fields including farming, industry, or teaching positions. This conference mainly focuses on the Botanists and their contribution to the search to find new species or do experiments to discover how plants grow under different conditions.

### Benefits of attending

- Accepted abstracts will be published in supporting Journals
- Global networking: In transferring and exchanging Ideas
- A Unique Opportunity for Advertisers and Sponsors at this International event
- Networking for future collaborations
- Scifed membership card holder gets 10% abatement on the registration fees for the next annual conference
- The focus and energy of Like-Minded Individuals
- The Serendipity of the Random Workshop
- Meet Experts & Influencers Face to Face

## GCPB-2019 expecting attendees from

Doctors, Professors, Students, Researchers, Business delegates, Industrial Leaders, CEO's and R&D, from all disciplines of Plant Biology related Departments from all recognized Plant Science Universities/Colleges/ all over the World.

## Who can attend?

Plant biology and Plant Science is a unique forum to bring together worldwide distinguished Academics in the field of Plant Physiology professionals, doctors, Professors, university researchers, scholars to exchange about state of the art research and technologies. Expert faculties will discuss the relevant advances in plant Biology research.

## Importance of this Conference

Plants are fundamental to all life on Earth. They provide us with food, fuel, fibre, industrial feedstocks, and medicines. They render our atmosphere breathable. They buffer us against extremes of weather and provide food and shelter for much of the life on our planet.

## Abstract Submission Tracks

- ▶ Plant Biology
- ▶ Plant Biotechnology
- ▶ Plant Molecular Biology
- ▶ Biodiversity and Evaluation of plants
- ▶ Plant Physiology and Biochemistry
- ▶ Proteomics, Genomics and Bioinformatics
- ▶ Plant Nutrition and Soil Sciences
- ▶ Plant Science and Natural Products
- ▶ Plant Nanotechnology
- ▶ Plant population ecology
- ▶ Medicinal and Aromatic Plant Sciences
- ▶ Soil Nutrients
- ▶ Plant Tissue Culture
- ▶ Plant Breeding
- ▶ Bioinformatics in Plant Science
- ▶ Plant Cell Biology
- ▶ Evolution of plant defense proteins
- ▶ Plant Diseases
- ▶ Plant Pathology and Mycology
- ▶ Forestry
- ▶ Horticulture
- ▶ Plant/Agriculture - Industrial Byproducts
- ▶ Entrepreneurs Investment B2B
- ▶ Plant Morphology and Plant Metabolism
- ▶ Plant Bioinformatics
- ▶ Plant Reproduction
- ▶ Plant Science - Growth and Investment
- ▶ Plant Research

## About Venue

Bangkok is the capital and most popular city of Thailand. The city occupies 1,568.7 square kilometres in the Central Thailand, and has a population over 8 million, or 12.6% of the country's population. There are 581 high-rise buildings in the city, ranking number 5 in the world. The city grew rapidly during 1960s through the 1980s and now exerts a significant impact among Thailand's politics, education, economy, media and modern society.

Bangkok certainly lives up to its reputation as a travel hot spot in Southeast Asia. The 'City of Angels' has funky markets, a riverside full of surprises, upmarket malls, a vibrant nightlife scene, many fabulous sights and attractions that reflect its unique heritage, and much more. It is an international hub for transport and health care, and has emerged as a regional centre for the arts, fashion and entertainment.
