## Welcome Message

Dear All,  
Welcome...!!!

Scientific Federation welcomes you to attend the "3rd Global Summit on Otolaryngology-2019" which is slated to hold on 18th Nov 2019 - 19th Nov 2019 at Amsterdam, Netherlands. It's a great and rare opportunity to attend the Presentations delivered by Eminent Scientists and Researchers from all over the world at one platform. One of the easy ways for global exploration of your research works. This includes Keynote presentations, Oral talks, Poster presentations, Workshop/Symposium and Exhibitions.

Otolaryngology-2019 will also provide the excellent opportunity to meet experts, exchange information, and strengthen the collaboration among Directors, Researchers, Associate Professors, and Scholars from both academia and industry.

The 3rd Global Summit on Otolaryngology is anticipating participants from 40 and more countries across the globe and the two-day conference will provoke Plenary sessions, Keynote speeches, Poster, and Oral Presentations. This program provides two days of robust discussions on recent advancements and new strategies for development of new materials for global requirements.

## Venue

**Amsterdam  
Netherlands**

The Netherlands consistently ranks among the top places in the world to live and work, which is great for any expat to learn about the Netherlands. But a Netherlands introduction doesn't end there.

The name Netherlands means "low countries." The country is sometimes called Holland, but the name only applies to two provinces, North and South Holland, which border the North Sea in Amsterdam and The Hague.

The Netherlands may be a small country in size, but certainly not in impact. The Netherlands is famed for its liberal social policies, maritime trading traditions, battles to hold back the sea, robust multiculturalism and leading technological communication.

Culture and quality living combined make the Netherlands an attractive place for expats, who are an intrinsic part of the country's knowledge-based economy.

Tourism is important to the country, and many visitors come to see Dutch art, architecture-and the flowers. Tulips are a major industry, and the Dutch produce billions of bulbs a year-more than any other country.
