

# Proteomics 2019

3rd Global Summit and Expo on  
**Proteomics**

**November 18-19, 2019 | Amsterdam, Netherlands**

**THEME:**

Latest Approaches on Proteomics  
Techniques and Applications in  
Different Fields

<https://www.scientificfederation.com/proteomics-2019/>

## Welcome Message

Dear All,  
Welcome...!!!

Scientific Federation welcomes you to attend the "3rd Global Summit and Expo on Proteomics" which is slated to hold on 18th November 2019 - 19th Nov 2019 at Amsterdam, Netherlands. It's a great and rare opportunity to attend the Presentations delivered by Eminent Scientists and Researchers from all over the world at one platform. One of the easy ways for global exploration of your research works. This includes Keynote presentations, Oral talks, Poster presentations, Workshop/Symposium and Exhibitions.

Proteomics-2019 will also provide the excellent opportunity to meet experts, exchange information, and strengthen the collaboration among Directors, Researchers, Associate Professors, and Scholars from both academia and industry.

The 3rd Global Summit and Expo on Proteomic is anticipating participants from 40 and more countries across the globe and the two-day conference will provoke Plenary sessions, Keynote speeches, Poster, and Oral Presentations. This program provides two days of robust discussions on recent advancements and new strategies for development of new materials for global requirements.

02

## Conference Objectives:

- To facilitate opportunities for networking, collaboration, and exchange of ideas with internationally renowned leaders in Proteomics research and development.
- To identify research and practice-based innovations in optimizing Proteomics research and development.
- To debate gaps and priorities for sustainable development in optimizing Proteomics research and development.

**We look forward to hosting you at Amsterdam, Netherlands in November, 2019...!!!**

**Best Regards  
Proteomics-2019  
Organizing Committee**

## Conference Highlights

The Scientific Federation brings you an immense opportunity to be a part of scientific acceleration to world class personalities, young scholars, scientific delegates and young scientists to join in this forum to utilize the expertise and novelties that brings a new era for innovations in the field of Materials, Photonics & Optical Instruments which brings well versed scrutinizers at one place. It provides a platform to have open discussions, knowledge sharing and interactive sessions with field experts at GSEP-2019.

## Conference Sessions:

- ◆ Proteomics In Drug Discovery
- ◆ Mass Spectrometry in Proteome Research
- ◆ Proteomics in Nutrition & Food Processing Industry
- ◆ Proteomics and its Medicinal Research
- ◆ Proteomics in Biochemistry and Molecular Biology
- ◆ Proteomics in Computational Systems Biology
- ◆ Proteomics for Bioinformatics
- ◆ Protein Engineering and Enzymology
- ◆ Protein Microarrays
- ◆ Cancer Proteome & Biomarkers
- ◆ Plant proteomics
- ◆ Genetics and Molecular biology

## For more info:

**For Abstracts Submission:**

<https://www.scientificfederation.com/proteomics-2019/abstract-submission.php>

**For Registration visit:**

<https://www.scientificfederation.com/proteomics-2019/registration.php>

**Conference sessions will bring you the latest strategies, research, and best practices to improve outcomes through quality, safety and staffing.**

## Important Dates

**Abstract Submission Opens: December 10, 2018**

**Registration opens: January 02, 2019**

**Early Bird Registration: July 20, 2019**

**Standard Registration: August 29, 2019**

**On spot registration: November 18, 2019**

## Venue

**Amsterdam  
Netherlands**

## Organizing Committee Members

**Abdulghani Mohamad Alsamarai**  
Tikrit University  
Iraq

**Afaf El-Ansary**  
King Saud University  
Saudi Arabia

**Akbar Nikkhah**  
University of Zanjan  
Iran

**Amer A. Taqa**  
Mosul University  
Iraq

**Mohamed Eddouks**  
Moulay Ismail University  
Morocco

**Mosaad A. Abdel-Wahhab**  
National Research Center  
Egypt

**Sergey Suchkov**  
Moscow State University of  
Medicine and Dentistry, Russia

**Vittorio Bellotti**  
University College London  
UK

**Magnus S Magnusson**  
University of Iceland  
Iceland

**Viroj Wiwanitkit**  
Hainan Medical University  
China

## About Venue

The Netherlands consistently ranks among the top places in the world to live and work, which is great for any expat to learn about the Netherlands. But a Netherlands introduction doesn't end there.

The name Netherlands means "low countries." The country is sometimes called Holland, but the name only applies to two provinces, North and South Holland, which border the North Sea in Amsterdam and The Hague.

The Netherlands may be a small country in size, but certainly not in impact. The Netherlands is famed for its liberal social policies, maritime trading traditions, battles to hold back the sea, robust multiculturalism and leading technological communication.

Culture and quality living combined make the Netherlands an attractive place for expats, who are an intrinsic part of the country's knowledge-based economy.

Tourism is important to the country, and many visitors come to see Dutch art, architecture—and the flowers. Tulips are a major industry, and the Dutch produce billions of bulbs a year—more than any other country.
