# About Saint Petersburg

Forensic Science-2020

Saint Petersburg is a city on the port of the Gulf of Finland. Established in 1703 as Russia's "Window on Europe" by Peter the Great, St. Petersburg is Russia's second largest city and bears the unofficial status of the country's cultural capital and the most European city and has witnessed some of the most important historical events. Moreover, the famous bridges and natural canals of the river have earned St. Petersburg another name "Venice of the North" Because of its unique architecture. St. Petersburg is also very famous for their special creative climate that attracts artists, writers and dreamers.

Saint Petersburg is rightly called the world's cultural capital. The historical centre of the city is protected by UNESCO. The city boasts world-famous museums, theatres, galleries, architectural monuments, cultural and educational institutions: There are many museums of which the most famous is the Hermitage, Russian National Library, St. Isaac's Cathedral, and the Russian Museum are just four of them. Many people visit St. Petersburg to familiarize themselves with Russia's great culture: visit the best shows, concerts, exhibitions, and festivals. Saint Petersburg is the home town of renowned Russian rock groups: Aquarium, Alisa, Kino, Auktion, Picnic, and many others.
