Trakia University
Bulgaria

○ Keynote Speakers

Dr.H.M. Rafeek

Consultant in Alternative Medicine,
Naturopathic Iridologist &
Specialist in Pain
Management, Sri Lanka

○ About Venue

Toronto, city, capital of the province of Ontario, southeastern Canada. It is the most populous city in Canada, a multicultural city, and the country's financial and commercial centre. Its location on the northwestern shore of Lake Ontario, which forms part of the border between Canada and the United States, and its access to Atlantic shipping via the St. Lawrence Seaway and to major U.S. industrial centre's via the Great Lakes have enabled Toronto to become an important international trading centre. Moreover, the city is positioned on the edge of some of the best farmland in Canada, with a climate favorable to growing a wide range of crops, thereby making Toronto a transportation, distribution, and manufacturing centre. Most importantly, its central location, along with a host of political policies favoring international trade, places this city with the greatest economic ties to, and influence from, the United States.

Toronto, the capital of Ontario, is the largest city in Canada and also one of the most diverse. It's home to a dynamic mix of tourist attractions, from museums and galleries to the world famous CN Tower and, just offshore, Toronto Islands. And just a short drive away is Niagara Falls.
