Welcome Message

Dear All,

Biomedical Engineering Conference welcomes you to 3rd World Conference & Expo on Biomedical Engineering during March 19-20, 2020 at Valencia Spain. This will bring together world leaders in their respective fields in the fascinating environment of at Valencia Spain. Biomedical Engineering Conference is to explore on Current Issues of Bioluminescence and BioSignals, Bioinformatics and Computational Biology , Biomaterials and Tissue Engineering , Bio Engineering & Biomolecular Engineering, Biomechanics and Mechanobiology, Bio-Micro/Nanotechnologies, Biomedical Sensors and Instrumentation, BioRobotics and Medical Devices, Bio-transportation, Biosensors and Bioelectronics, Engineering/Synthetic Biology, Medical Imaging and Signal Processing .This event gives a chance for all the professionals to gain and share information on Biomedical Engineering . We do expect this conference will be an opportunity to meet and gather with colleagues from different countries and other parts of Spain.

Conference Objectives:

- To facilitate opportunities for networking, collaboration and exchange of ideas with internationally renowned leaders in Biomedical Engineering.
- To identify research and practice based innovations in optimizing Biomedical Engineering.
- To debate gaps and priorities for sustainable development in optimizing Biomedical Engineering.
- To discuss and debate the challenges and opportunities in the new era of optimizing Biomedical Engineering.
- To identify opportunities for evidence-based practice in optimizing Biomedical Engineering.

We look forward to seeing you in Valencia in March, 2020...!!!

Best Regards

3rd World Conference & Expo on Biomedical Engineering

Conference Highlights

The Scientific Federation brings you an immense opportunity to be a part of scientific acceleration to world class personalities, young scholars, scientific delegates and young scientists to join in this forum to utilize the expertise and novelties that brings a new era for innovations in the field of Biomedical Engineering which brings well versed scrutinizers at one place

Sessions

- Bioluminescence and BioSignals
- Bioinformatics and Computational Biology
- Biomaterials and Tissue Engineering
- Bio Engineering & Biomolecular Engineering
- Biomechanics and Mechanobiology
- Bio-Micro/Nanotechnologies
- Biomedical Sensors and Instrumentation
- BioRobotics and Medical Devices
- Bio-transportation
- Biosensors and Bioelectronics
- Engineering/Synthetic Biology
- Medical Imaging and Signal Processing
- Medical, Rehabilitation Robotics and Assistive Technology

For Abstracts Submission:

Registration link:

<https://scientificfederation.com/biomedical-engineering-2020/registration.php>

Conference sessions will bring you the latest strategies, research, and best practices to improve outcomes through quality, safety and staffing

Organizing Committee Members

Keka Talukdar

Independent Researcher, India

Ramesh C. Gupta

Nagaland University, India

Salvatore Morgera

University of south Florida, Usa

David Cheneler

Mysore University, India

Niels Wessel

Humboldt University ZU, Berlin

Sponsors and Exhibitors Information

Scientific Federation Meetings are one of the leading international conferences around the globe. Game-changing developments, such as the deployment of new domain extensions, and the emergence of disruptive and creative business models are enabled by decisions taken at this platform and it's not just for techies! Representatives from the global business community, governments, industry insiders, and many other contributors whose work affects the Federation of the global Internet will attend. Scientific Federation Sponsorship opens the door to this select and sophisticated audience. We encourage you to take advantage of this unique opportunity to participate as a sponsor. Choose a package that meets your particular marketing objectives, or talk with our staff about creating a marketing program that is uniquely yours.

Adding value to the Scientific Federation experience while integrating your brand's products will not only showcase the authenticity of the brand, but will result in great, objective 3rd party recognition that will move the influencer needle. This is more than a marketing play. It's about creating experiences that will resonate long After your brand strikes its activations.

When your brand purchases a Sponsorship package, it is committing itself to delivering experiential relevance and value to thousands of industry influencers including press, creative's and their millions of collective followers, who have come to expect nothing less from Scientific Federation and its partners.

Through activations, product integration, social media and logo placement, your brand has the tools to educate, entertain and engage a captive audience on what it is doing to make a difference in the global Scientific Community. So put your best foot forward. Visualize this partnership through the eyes of our attendees...!!!

About Venue

Spain is a country mostly located in Europe. Its continental European territory is situated on the Iberian Peninsula. Its territory also includes two archipelagoes: the Canary Islands off the coast of Africa, and the Balearic Islands in the Mediterranean Sea. The African enclaves of Ceuta, Melilla, and Pannon make Spain the only European country to have a physical border with an African country (Morocco). Several small islands in the Albetan Sea are also part of Spanish territory. The country's mainland is bordered to the south and east by the Mediterranean Sea except for a small land boundary with Gibraltar; to the north and northeast by France, Andorra, and the Bay of Biscay; and to the west and northwest by Portugal and the Atlantic Ocean.

With an area of 505,990 km² (195,360 sq mi), Spain is the largest country in Southern Europe, the second largest country in Western Europe and the European Union, and the fourth largest country in the European continent. By population, Spain is the sixth largest in Europe and the fifth in the European Union.

Valencia was founded as a Roman colony by the consul Decimus Junius Brutus Callaicus in 138 BC, and called Valencia Edetanorum. In 714 Moroccan and Arab Moors occupied the city, introducing their language, religion and customs; they implemented improved irrigation systems and the cultivation of new crops as well. Valencia was the capital of the Taifa of Valencia. In 1238 the Christian king James I of Aragon conquered the city and divided the land among the nobles who helped him conquer it, as witnessed in the Libro del Departamento. He also created a new law for the city, the Furs of Valencia.
