About Venue

Las Vegas is the most populous city in Nevada, the seat of Clark County, and an internationally eminent significant resort city for gaming, shopping and fine eating. The city earned the title as Sin City, and this image has made Las Vegas a popular setting for films and television programs. Las Vegas, which charges itself as The Entertainment Capital of the World, is renowned for the number of casino resorts and associated entertainment. A developing retirement and family city, it is the 28th most crowded city in the United States.

The primary drivers of the Las Vegas economy are tourism, gaming, and conventions, which in turn feed the retail and restaurant industries. The major attractions in Las Vegas are the casinos and the hotels. Most of the hotel casinos are in the city's downtown area, which has been the focal point of the city's gaming industry since its early days. Most casinos are downtown on the Fremont Street Experience.
