

Global Congress & Expo on Crystallography & Novel Materials

March 19-20, 2020

Crystallography & Novel Materials-2020

Valencia, Spain

Theme:

Innovative Approach and Recent Developments in Novel Materials and
Crystallography

• Valencia, Spain

• +91-779-979-0002

• crystallography-2020@scientificfederation.com

Welcome Message

Dear All,

Crystallography conference welcomes you to Global Congress & Expo on Crystallography & Novel Materials during March 19-20, 2020 at Valencia, Spain. This will bring together world leaders in their respective fields in the fascinating environment of Valencia, Spain. Crystallography conference is to explore on current research of Crystallography and Novel Materials. This event gives a chance for all the professionals to gain and share information on Crystallography and Novel Materials. We do expect this conference will be an opportunity to meet and gather with colleagues from different countries and other parts of Spain.

Conference Objectives:

- To facilitate opportunities for networking, collaboration and exchange of ideas with internationally renowned leaders in Crystallography and Novel Materials.
- To identify research and practice based innovations in optimizing Crystallography and Novel Materials.
- To debate gaps and priorities for sustainable development in optimizing Crystallography and Novel Materials.
- To discuss and debate the challenges and opportunities in the new era of optimizing Crystallography and Novel Materials.
- To identify opportunities for evidence-based practice in optimizing Crystallography and Novel Materials..

We look forward to seeing you in Spain in March, 2020...!!!

Best Regards

Global Congress & Expo on Crystallography & Novel Materials

Conference Highlights

The Scientific Federation brings you an immense opportunity to be a part of scientific acceleration to world class personalities, young scholars, scientific delegates and young scientists to join in this forum to utilize the expertise and novelties that brings a new era for innovations in the field of Crystallography and Novel Materials which brings well versed scrutinizers at one place.

Sessions

- Crystallography in Material Science
- X-ray Crystallography
- Novel materials for Energy applications
- Structural Chemistry in Crystallography
- Crystallographic Computing
- Crystal Growth and Crystallization
- Chemical Crystallography
- Crystallography in Biology

For Abstracts Submission:

<https://scientificfederation.com/crystallography-2020/abstract-submission.php>

Registration link:

<https://scientificfederation.com/crystallography-2020/registration.php>

Conference sessions will bring you the latest strategies, research, and best practices to improve outcomes through quality, safety and staffing

Organizing Committee Members

Ashraf Maher Abdel Ghaffar

National Center for Radiation Research and Technology, Egypt

Dongfeng Xue

State Key Laboratory of Rare Earth Resource Utilization, China

Athir Haddad

University of Basrah, Iraq

Hadi Arabi

Ferdowsi University Of Mashhad, Iran

Majid Ghassemi

K.N. Toosi University of Technology, Iran

Malek Okdeh

Teshreen University Lattakia, Syria

Jan Mohammad Mir

Islamic University of Science and Technology, India

Antonello Merlino

University of Naples Federico II, Italy

Ramesh C. Gupta

RNB Global University Bikaner, India

Vimal S. Joshi

Shri R. K. Parikh Arts and Science College Gujarat University, India

Sponsors and Exhibitors Information

Scientific Federation Meetings are one of the leading international conferences around the globe. Game-changing developments, such as the deployment of new domain extensions, and the emergence of disruptive and creative business models are enabled by decisions taken at this platform and it's not just for techies! Representatives from the global business community, governments, industry insiders, and many other contributors whose work affects the Federation of the global Internet will attend. Scientific Federation Sponsorship opens the door to this select and sophisticated audience. We encourage you to take advantage of this unique opportunity to participate as a sponsor. Choose a package that meets your particular marketing objectives, or talk with our staff about creating a marketing program that is uniquely yours.

Adding value to the Scientific Federation experience while integrating your brand's products will not only showcase the authenticity of the brand, but will result in great, objective 3rd party recognition that will move the influencer needle. This is more than a marketing play. It's about creating experiences that will resonate long After your brand strikes its activations.

When your brand purchases a Sponsorship package, it is committing itself to delivering experiential relevance and value to thousands of industry influencers including press, creative's and their millions of collective followers, who have come to expect nothing less from Scientific Federation and its partners.

Through activations, product integration, social media and logo placement, your brand has the tools to educate, entertain and engage a captive audience on what it is doing to make a difference in the global Scientific Community. So put your best foot forward. Visualize this partnership through the eyes of our attendees...!!!

About Venue

Spain is a country mostly located in Europe. Its continental European territory is situated on the Iberian Peninsula. Its territory also includes two archipelagoes: the Canary Islands off the coast of Africa, and the Balearic Islands in the Mediterranean Sea. The African enclaves of Ceuta, Melilla, and Pannon make Spain the only European country to have a physical border with an African country (Morocco). Several small islands in the Albetan Sea are also part of Spanish territory. The country's mainland is bordered to the south and east by the Mediterranean Sea except for a small land boundary with Gibraltar; to the north and northeast by France, Andorra, and the Bay of Biscay; and to the west and northwest by Portugal and the Atlantic Ocean.

With an area of 505,990 km² (195,360 sq mi), Spain is the largest country in Southern Europe, the second largest country in Western Europe and the European Union, and the fourth largest country in the European continent. By population, Spain is the sixth largest in Europe and the fifth in the European Union.

Valencia was founded as a Roman colony by the consul Decimus Junius Brutus Callaicus in 138 BC, and called Valencia Edetanorum. In 714 Moroccan and Arab Moors occupied the city, introducing their language, religion and customs; they implemented improved irrigation systems and the cultivation of new crops as well. Valencia was the capital of the Taifa of Valencia. In 1238 the Christian king James I of Aragon conquered the city and divided the land among the nobles who helped him conquer it, as witnessed in the Libro del Departamento. He also created a new law for the city, the Furs of Valencia.
