Welcome Message

Dear All,

Scientific Federation invites all the participants from all over the world to attend **International Congress and Expo on Cardiology** during **September 11-13, 2017 in Miami, USA** which includes Keynote presentations, Oral talks, Poster presentations and Exhibitions.

Cardiology -2017 will also provide the excellent opportunity to meet experts, exchange information, and strengthen the collaboration among Directors, Researchers, Associate Professors, and Scholars from both academia and industry. The main theme of the conference is *"Advances in Cardiovascular Medicine and Recent Research on Cardiac Diseases"*.

We cordially invite you to participate and contribute to the success of this event. Your presence will be our pleasure.

Conference Objectives:

- Establishing their academic and professional relationships.
- Improving their morale and confidence of presenting research in an international platform.
- Interacting with expertise in their respective departments.
- Clearing your inhibitions of adjusting to the foreign environment.
- Providing a holistic experience of academic tourism.
- To facilitate opportunities for networking, collaboration and exchange of ideas with internationally renowned leaders in Cardiology and development.
- To identify research and practice based innovations in optimizing Cardiology research and development.

We look forward to seeing you in Miami, USA...!!!

Best Regards

Cardiology -2017 Organizing Committee

Conference Highlights

International Congress and Expo on Cardiology is anticipating participants from 40 and more countries across the globe and the three day conference will provoke Plenary sessions, Keynote speeches, Poster, and Oral presentations. This program provides three days of robust discussions on recent advancements and new strategies for development of new materials for global requirements.

- Chronic total occlusions
- Coronary atherectomy in severely calcified lesions
- Controversies in coronary interventions
- Interventional management of pulmonary embolism
- Complex peripheral interventions
- Transcatheter aortic valve replacement
- Catheter-based mitral valve repair / replacement
- Structural heart disease (shd) interventions
- Novel approaches for diagnosis and treatment
- Advances in cardiovascular imaging that will impact patient care
- Cellular and molecular mechanisms of cardiovascular diseases
- Interventional cardiology
- Lipids, obesity, metabolic syndrome and diabetes
- Electrophysiology: sudden death, arrhythmias and device therapy
- New directions in cardiovascular surgery

About Miami

Miami is one of the state's – and the world's – most popular vacation spots. Miami is an international city at Florida's southeastern tip. Metropolitan Miami is the major tourism hub in the American South. Miami is a major center of commerce, finance, and boasts a strong international business community. The city also has many public parks with a profusion of trees and flowers. Some of these have facilities for camping and various sports activities. Tourists -over 10 million per year- generate more than 60% of the Miami area's economic activity.
