Welcome Message

Dear All,

Scientific Federation is delighted to hearty welcome you all to the **World Conference on Robotics & Artificial Intelligence** during **July 26-27, 2018 at Barcelona, Spain.**

We are delighted to have your look on our organization. This time we brought an excellent opportunity to young scholars, scientific delegates and young scientists to join in this forum to utilize the expertise and novelties that brings a new era for innovations in the field of Robotics & Artificial Intelligence.

WCRAI-2018 is prepared a platform to have open discussion with your amigo's having similar ideas like you. Scientific federation hearty welcomes world leaders and professional experts to participate in the World Conference on Robotics & Artificial Intelligence to share your valuable innovations and suggestions to the next generations. The main theme of the World Conference on Robotics & Artificial Intelligence is *"Future scope in the field of Robotics & Artificial Intelligence"*.

Conference Objectives:

- To facilitate opportunities for networking, collaboration and exchange of ideas with internationally renowned leaders in Robotics and Artificial Intelligence.
- To identify research and practice based innovations in optimizing Robotics and Artificial Intelligence.
- To debate gaps and priorities for sustainable development in optimizing Robotics and Artificial Intelligence.
- To discuss and debate the challenges and opportunities in the new era of Robotics and Artificial Intelligence.
- To identify opportunities for evidence-based practice in optimizing Robotics and Artificial Intelligence.

We look forward to seeing you in Barcelona in July, 2018...!!!

Best Regards

Organizing Committee

Conference Highlights

The Scientific Federation brings you an immense opportunity to be a part of scientific acceleration to world class personalities, young scholars, scientific delegates and young scientists to join in this forum to utilize the expertise and novelties that brings a new era for innovations in the field of Robotics and Artificial Intelligence which brings well versed scrutinizers at one place. It provides a platform to have open discussions, knowledge sharing and interactive sessions with field experts at WCRAI-2018.

- Intelligent Mechatronics and Robotics
- Automation
- Haptics
- Tele-Robotics, Medical Robotics
- Aerial and Underwater Robotics
- Design and Simulation of Robotic Systems
- Machine learning for Robotics
- Prosthetics and Exo-skeleton Systems
- Micro and Nano-robotics
- Machine Vision for Robotics
- Artificial Intelligence, Neuro control and Fuzzy control for Robotics
- Genetic Algorithms and Reinforcement Learning
- Natural Language Processing
- Human Machine Interface
- Rapid Proto-typing and 3D Printing Technology
- Robot Localization and Mapping
- Machine Vision for Robotics

For Abstracts Submission: <http://scientificfederation.com/robotics-artificial-intelligence-2018/abstract-submission.php>

Conference sessions will bring you the latest strategies, research, and best practices to improve outcomes through quality, safety and staffing.

Organizing Committee Members

Imtiaz Ahmed Khan
Novatech Robo Pvt Ltd
OVATECH
ROBO PVT LTD
Country, India

Cheng Siong CHIN
Newcastle University, England

Francesco Zirilli
University: Sapienza University of Rome
ROBO PVT LTD, Italy

Dariusz Jacek Jakóbczak
Koszalin University LTD, Poland

Francesco Carlo
Mediterranea University, Italy

Dhyaa Shaheed Sabur Al_Azzawy
Wasit University, Iraq

Salah R. Agha
Islamic University PVT, Gaza

Abbas Amini
Western Sydney University, Australia

Abdel-Badeh M. Salem
Ain Shams University, Egypt

Ayman A. Aly
Taif University, Saudi Arabia

About Barcelona

Barcelona, the cosmopolitan capital of Spain's Catalonia region, is known for its art and architecture. The fantastical Sagrada Família church and other modernist landmarks designed by Antoni Gaudí dot the city. Museu Picasso and Fundació Joan Miró feature modern art by their namesakes. City history museum MUHBA, includes several Roman archaeological sites. The Olympic Harbour separates them from the other city beaches: Nova Icària, Bogatell, Mar Bella, Nova Mar Bella and Llevant. These beaches (ranging from 400 to 640 m (1,310 to 2,100 ft) were opened as a result of the city restructuring to host the 1992 Summer Olympics, when a great number of industrial buildings were demolished. At present, the beach sand is artificially replenished given that storms regularly remove large quantities of material.

Important Dates

Abstract Submission Opens: July 10, 2017

Registration opens: July 15, 2017

Early bird registration: October 27, 2017

On spot registration: July 26, 2018

Venue

Barcelona, Spain
