Welcome Message

Welcome .!!!!

As chairman, I am honored to be your host for NANOTECHNOLOGY-2019. We extend a warm welcome to all our Plenary, Keynote and Invited Speakers, and all other presenters and guests. Exciting and inspiring lectures from eminent international scientists will be among the highlights of the scientific program.

NANOTECHNOLOGY-2019 brings together leading scientists and engineers worldwide to discuss the latest advances in the field under the theme ‘Presenting excellence of Nanotechnology to transform the world’. Already today, Nanotechnology is helping us to improve and in places revolutionize numerous technology and industry sectors: information technology, medicine, transportation, energy, security, food safety, and environmental preservation, among many others. The global nanotechnology market is set to grow at a compound annual growth rate of 18.1% over the next years to a market size of $173.95 billion by 2025.

As part of NANOTECHNOLOGY-2019, we will run special events aimed to communicate directly with businesses about potential partnerships and collaborations that are an integral part of modern R & D and which make possible the commercialization of cutting-edge technology.

Welcome to Kuala Lumpur, Malaysia’s vibrant capital city, steeped in cultural diversity and youthful energy. Both traditional and modern architecture provide a magnificent backdrop to a safe and friendly bustling port, where the cosmopolitan and charming converge in the delightful diversity that is KL.

Malaysia has many scenic, cultural and natural attractions, and is excellent and safe country to visit. As tourism is a major Malay industry, tourists are well-catered for, with quality accommodation, attractions and activities throughout the country. The hospitality is legendary- so why not extend your visit and explore?

Regards
