

Welcome Message by Chair Person

Professor. Aristidis M. Tsatsakis

The **3rd World Summit on Toxicology & Applied Pharmacology**” held at **Saint Petersburg, Russian Federation, June 15-16, 2020** will show us the most important concepts on toxicological issues of today providing a great opportunity for toxicologists and scientists around the world to discover and share experiences.

Today, with many years of research, we have achieved the concept where the vast majority of human real-life exposure scenarios have two main key components, low doses and many contributing chemicals that create a final effect.

As it is known, the crucial element in risk assessment is exposure assessment, and there is a thin line between human toxicology and exposure assessment, where throughout this conference, attendees will have the opportunity to discover.

The dedicated years I have given to enrich and build foundations of the concept “Life Risks Simulations and Risk Assessments” and my scientific input on toxicology internationally, and especially in Russia, as a member of the National Academy of Sciences of Russia (RAS), has given me the opportunity to share with you the most recent highlights of this scientific field.

Therefore, I invite you all to Saint Petersburg to share and to discuss current opinions and achievement in this very interesting field of toxicology and pharmacology.

A handwritten signature in black ink, which appears to read 'Aristidis M. Tsatsakis'. The signature is fluid and cursive.

Aristidis M. TSATSAKIS

Academician, National Academy of Sciences, Russia (RAS), Fellow ATS, (USA)
MSc (Org Chem), PhD (Chem), ERT (Eur Registered Toxicologist), DSc (Biol)
Doctor Honoris Causa Univ. Mendeleev & F.E.F.U & Carol Davila,
Emeritus Professor Institute F.F.Erisman,
Chairman of Forensic Medicine & Toxicology Department,
Ex-President and Honorary Member of the Federation of European Societies of Toxicology (EUROTOX),
Honorary President of the European Institute of Nutritional Medicine (E.I.Nu.M.),
Full Member of the World Academy of Sciences (FMWAS),
Honorary President of the Hellenic Society Toxicology,
Honorary Member of the Bulgarian Toxicological Society,
Editor of Food and Chemical Toxicology,
Editor in Chief of Toxicology Reports,
